

Remote Learning With Merge

Merge EDU uses advanced spatial computing technology that allows students to touch and interact with 3D digital content. Hold anything, anywhere.

HANDS-ON STEM & SCIENCE

Creating Success During COVID-19 & Beyond

With fun and engaging activities designed to enhance learning, kids will be engaged, amazed and inspired to learn more, wherever they are.

- Special licensing for districts affected by COVID-19
- Supports both your remote learning needs now, and classroom use later
- Includes remote learning resources for both students & teachers
- Access to unlimited Merge Paper Cubes for student use at home
- Curriculum aligned to each state's science standards
- Teacher dashboard with student progress tracking
- Engaging and enriching for at home, classrooms, labs, and makerspaces
- Easy to deploy throughout schools & districts with single sign on systems*
- Compatible with many different devices
